

Krish Arora

Career Objective

To secure an entry-level software development role leveraging Python, SQL, and Agile methodologies to contribute to innovative projects. Seeking a challenging environment to apply my skills in data structures, algorithms, and version control (Git) for impactful results.

Personal Info

Name: Krish Arora

Email: ravelharita@example.net

Phone: 01683830267

College: Pune Institute of Computer Technology (PICT)

Achievements

1. Developed a novel algorithm for [specific task, e.g., real-time object detection in low-light conditions] resulting in a [quantifiable improvement, e.g., 20%] increase in accuracy compared to existing state-of-the-art methods. This was demonstrated through rigorous testing and documented in a project report.
2. Successfully designed and implemented a fully functional [type of application, e.g., mobile application for managing personal finances] incorporating [key technologies used, e.g., secure cloud storage, user authentication via OAuth, and a responsive user interface]. The application is currently available at [link to GitHub repository or deployed application, if applicable].

Skills

- * Programming in Python
- * Data Structures and Algorithms
- * Database Management (SQL)
- * Software Development Lifecycle (SDLC) methodologies (e.g., Agile)
- * Version Control (Git)
