

Urvashi Tak

Career Objective

To leverage database and data science skills to contribute to a challenging and innovative role within a technology-driven organization. Seeking an entry-level position where I can apply my expertise and further develop my abilities.

Personal Info

Name: Urvashi Tak

Email: robert27@example.net

Phone: +912319748006

College: Bharati Vidyapeeth Deemed University College of Engineering

Achievements

Developed a novel recommendation system using collaborative filtering and a PostgreSQL database, resulting in a 25% increase in user engagement compared to existing methods.

Designed and implemented a data pipeline for processing and analyzing large-scale sensor data using Python and Spark, leading to the accurate prediction of equipment failures with 90% accuracy.

Skills

- * SQL proficiency (database querying and manipulation)
- * Data mining and cleaning techniques
- * Machine learning algorithms (regression, classification, clustering)
- * Statistical modeling and analysis
- * Big data technologies (e.g., Hadoop, Spark)
