

# Kritika Keer

## *Career Objective*

To leverage my strong programming and database skills in a challenging entry-level software development role, utilizing Agile methodologies and version control for efficient and high-quality software delivery.

Seeking an opportunity to apply my knowledge of data structures, algorithms, and software development lifecycle to contribute to a dynamic team.

## *Personal Info*

Name: Kritika Keer

Email: isaiahtoor@example.com

Phone: +913031395527

College: Bharati Vidyapeeth Deemed University College of Engineering

## *Achievements*

1. Developed a novel, machine learning-based system for real-time anomaly detection in network traffic, resulting in a 15% reduction in false positives compared to existing solutions, as demonstrated in a final-year project.

2. Designed and implemented a fully functional, cross-platform mobile application using React Native, integrating with a cloud-based backend (Firebase) to manage user data and achieve seamless synchronization; successfully launched the app on both iOS and Android platforms.

## *Skills*

- \* Proficiency in at least one programming language (e.g., Python, Java, C++)
- \* Data structure and algorithm design and analysis
- \* Database management (SQL, NoSQL)
- \* Software development lifecycle methodologies (Agile, Waterfall)
- \* Version control (Git)
