

Yauvani Dhawan

Career Objective

To leverage my skills in Python programming, data structures, and cloud computing to contribute to a dynamic software development team. Seeking an entry-level role where I can apply my knowledge of Agile methodologies and database management to build innovative solutions.

Personal Info

Name: Yauvani Dhawan

Email: paniniacharya@example.org

Phone: 00965644275

College: Pimpri Chinchwad College of Engineering & Research (PCCOER)

Achievements

1. Developed a novel, high-performance algorithm for [specific task, e.g., image recognition] resulting in a [quantifiable improvement, e.g., 30%] reduction in processing time compared to existing state-of-the-art methods. This was implemented as part of the [project name] project and validated through rigorous testing.

2. Designed and implemented a fully functional [type of application, e.g., mobile application] for [target audience, e.g., visually impaired users] that utilizes [specific technologies, e.g., haptic feedback and AI-powered object recognition] to address the challenge of [problem solved, e.g., independent navigation]. The project, [project name], received positive feedback from user testing and demonstrated a significant impact on [positive outcome, e.g., user independence and quality of life].

Skills

- * Programming in Python

- * Data Structures and Algorithms

- * Database Management (SQL)
- * Software Development Methodologies (Agile)
- * Cloud Computing (AWS/Azure/GCP)
