

# Faqid Mishra

## Achievements

1. **Masterful Database Integration:** Designed and implemented a high-performance, scalable database system for a complex, competitive programming project, achieving a 99.9% uptime and demonstrating proficiency in database optimization techniques, resulting in a significant reduction in query execution time.
2. **Full-Stack E-commerce Mastery:** Successfully developed a fully functional e-commerce platform, encompassing a responsive frontend, a robust backend using modern frameworks, and a secure, relational database to manage product inventory, user accounts, and transactions, showcasing expertise in all aspects of software development.

## Skills

- \* SQL and NoSQL database management
- \* Proficiency in at least one backend framework (e.g., Node.js, Spring Boot, Django)
- \* REST API design and implementation
- \* JavaScript framework expertise (e.g., React, Angular, Vue.js)
- \* Algorithm design and competitive programming proficiency

## Personal Info

Name: Faqid Mishra

Email: harsh42@example.net

Phone: +911591371584

College: Pimpri Chinchwad College of Engineering & Research (PCCOER)

## Career Objective

To leverage my skills in database management, competitive programming, and full-stack development to contribute to innovative software solutions. Seeking an entry-level position where I can learn and grow within a dynamic team.
