Personal Info

Name: Advay Ram

Email: dkhurana@example.com

Phone: 05789152197

College: Bharati Vidyapeeth Deemed University College of Engineering

Career Objective

To secure an entry-level software developer role leveraging my proficiency in Python, data structures, and database management to contribute to innovative projects. Seeking a challenging position where I can apply my knowledge of Agile methodologies and version control (Git) within a collaborative team environment.

Skills

- * Proficiency in at least one programming language (e.g., Python, Java, C++)
- * Data structure and algorithm analysis
- * Database management (SQL, NoSQL)
- * Software development lifecycle methodologies (Agile, Waterfall)
- * Version control systems (Git)

Achievements

1. Developed a high-performance, scalable web application using Python/Django and PostgreSQL, resulting in a 30% reduction in server response time compared to a baseline system, as demonstrated by rigorous performance testing and documented in a final project report.
2. Designed and implemented a novel machine learning algorithm for [specific task, e.g., image recognition, natural language processing], achieving a [quantifiable result, e.g., 95% accuracy] on a benchmark dataset, surpassing state-of-the-art results by [percentage or specific metric] as detailed in a published conference paper/technical report.
