

# Amol Nadig

## *Skills*

- \* Machine Learning Model Development
- \* SQL and NoSQL Database Management
- \* Algorithm Design and Analysis
- \* Data Structures and Algorithms Implementation
- \* Software Development using Python or similar language

## *Personal Info*

Name: Amol Nadig

Email: pkorpal@example.net

Phone: +917333307580

College: Pimpri Chinchwad College of Engineering (PCCOE)

## *Career Objective*

To leverage AI/ML, database, and competitive programming skills to contribute to innovative software development. Seeking an entry-level role where I can learn and grow within a challenging and dynamic team.

## *Achievements*

Achievement 1: Developed a novel AI-powered database optimization system for [Project Name], significantly improving query response times by X% while reducing resource consumption by Y%, showcasing expertise in AI/ML, database management, and algorithm design.

Achievement 2: Secured top Z% placement in [Competition Name], a prestigious competitive programming competition, demonstrating exceptional algorithmic skills and problem-solving capabilities under pressure, while leveraging advanced data structures and algorithms.
