

Ucchal Ganguly

Achievements

1. Developed a high-performance, scalable web application using React.js and Node.js, resulting in a 30% improvement in user response times compared to existing solutions. The application successfully managed a peak load of 10,000 concurrent users during a university-wide event.
2. Designed and implemented a novel machine learning algorithm for image classification, achieving a 95% accuracy rate on a challenging dataset. This surpassed the performance of existing state-of-the-art models by 5%, as demonstrated through rigorous testing and peer review.

Skills

- * Proficiency in at least one programming language (e.g., Java, Python, C++)
- * Database management skills (SQL, NoSQL)
- * Software development methodologies (Agile, Waterfall)
- * Version control (Git)
- * Understanding of data structures and algorithms

Personal Info

Name: Ucchal Ganguly

Email: sureshneel@example.net

Phone: 06983633451

College: Vishwakarma Institute of Information Technology (VIIT)

Career Objective

To secure an entry-level software developer role leveraging my proficiency in Java, SQL, and Agile methodologies to contribute to innovative software solutions. Seeking a challenging position where I can apply my knowledge of data structures, algorithms, and version control (Git) to build high-quality applications.
