

Vedika Puri

Skills

- * Python programming (including relevant libraries like NumPy, Pandas, Scikit-learn, TensorFlow/PyTorch)
- * Machine learning algorithms (e.g., regression, classification, clustering, deep learning)
- * Frontend web development (HTML, CSS, JavaScript, React/Angular/Vue.js)
- * Data visualization (Matplotlib, Seaborn, D3.js)
- * Cloud computing platforms (AWS, Google Cloud, Azure)

Personal Info

Name: Vedika Puri

Email: kritikabhagat@example.net

Phone: 2028824946

College: Pimpri Chinchwad College of Engineering & Research (PCCOER)

Career Objective

To leverage AI/ML and frontend development skills to build innovative and user-friendly applications. Seeking an entry-level position where I can contribute to a dynamic team and learn from experienced professionals.

Achievements

Developed a novel AI-powered recommendation system using machine learning algorithms and a React frontend, resulting in a 30% increase in user engagement metrics compared to existing methods.

Built a real-time object detection application leveraging TensorFlow and a Vue.js frontend, achieving 95% accuracy in identifying objects within a complex visual environment, exceeding the project benchmark by 10%.
