

Nakul Shenoy

Achievements

Achievement 1: Mastered Full-Stack Development through Innovative Web3 Application. Successfully designed, developed, and deployed a decentralized application integrating cutting-edge frontend technologies with smart contract functionality, demonstrating proficiency in both competitive programming optimization and modern web3 development best practices.

Achievement 2: Demonstrated Exceptional Frontend Expertise and Algorithmic Problem-Solving Skills. Consistently ranked among the top performers in competitive programming challenges while simultaneously leading the development of a complex, high-performance frontend interface for a large-scale college project, showcasing a unique blend of technical abilities and collaborative leadership.

Skills

- * JavaScript frameworks (React, Angular, Vue.js)
- * Competitive programming languages (C++, Python)
- * Solidity (Smart contract development)
- * Web3 development tools (Truffle, Hardhat)
- * RESTful API design and integration

Personal Info

Name: Nakul Shenoy

Email: dhruvrao@example.com

Phone: 09079090680

College: Pimpri Chinchwad College of Engineering & Research (PCCOER)

Career Objective

Seeking a challenging entry-level software engineering role leveraging frontend development and competitive programming skills to contribute to innovative Web3 projects. Eager to apply strong problem-solving abilities and learn from experienced professionals.
