

Mohini Balay

Skills

- * Proficiency in at least one programming language (e.g., Python, Java, C++)
- * Database management skills (SQL, NoSQL)
- * Software development methodologies (Agile, Waterfall)
- * Data structures and algorithms
- * Version control (Git)

Personal Info

Name: Mohini Balay

Email: nchokshi@example.org

Phone: 0991950775

College: Symbiosis Institute of Technology (SIT)

Career Objective

To secure an entry-level software developer role leveraging my proficiency in Python, SQL, Agile methodologies, and data structures to contribute to innovative projects. Seeking a challenging environment to further develop my skills in software development and database management.

Achievements

1. Developed a novel, high-performance algorithm for [Specific task, e.g., real-time image processing] resulting in a [Quantifiable improvement, e.g., 30%] reduction in processing time compared to existing solutions. This was implemented as part of the [Project Name] project, showcasing proficiency in [Relevant skills, e.g., C++, data structures, algorithm optimization].
2. Successfully designed and deployed a fully functional [Type of application, e.g., web-based application] for [Purpose of application, e.g., managing student club finances] using [Technologies used, e.g., React, Node.js, MongoDB]. This project demonstrated expertise in full-stack development, including database management, API design, and front-end user interface development, as showcased in the [Project Name] project.
