

Rajeshri Warrior

Achievements

1. Developed a novel, multi-threaded image processing algorithm resulting in a 35% performance increase over existing state-of-the-art solutions, as demonstrated in a final year project focused on real-time medical image analysis.
2. Designed and implemented a fully functional, scalable e-commerce platform utilizing a microservices architecture and incorporating robust security measures, exceeding project requirements by integrating a user-friendly, AI-powered product recommendation system.

Skills

- * Proficiency in at least one programming language (e.g., Python, Java, C++)
- * Understanding of data structures and algorithms
- * Experience with databases (SQL, NoSQL)
- * Software development lifecycle knowledge (Agile, Waterfall)
- * Version control (Git)

Personal Info

Name: Rajeshri Warrior

Email: anthonydayal@example.net

Phone: 01918660010

College: Bharati Vidyapeeth Deemed University College of Engineering

Career Objective

To obtain an entry-level software development role leveraging my programming, database, and software lifecycle skills to contribute to innovative projects. Seeking a challenging position where I can further develop my expertise and contribute to a collaborative team environment.
