Darsh Chanda

Career Objective

Seeking a challenging entry-level role leveraging competitive programming, backend, Web3, and data analytics skills. Eager to contribute to innovative projects and rapidly expand my technical expertise.

Personal Info

Name: Darsh Chanda

Email: khatrimitesh@example.com

Phone: 03040525290

College: Bharati Vidyapeeth Deemed University College of Engineering

Achievements

Achievement 1: Developed a high-performance, decentralized data analytics platform using blockchain technology (Web3) and optimized backend services, resulting in a 30% improvement in query processing speed compared to centralized alternatives. This project leveraged competitive programming skills to optimize core algorithms.

Achievement 2: Created a sophisticated web application for visualizing complex datasets, incorporating advanced data analytics techniques and a user-friendly interface. The application's backend, built using efficient data structures and algorithms honed through competitive programming, achieved a 99.9% uptime and handled peak loads with minimal latency.

Skills

* Algorithm Design and Analysis

* Backend Development (e.g., REST APIs, databases)

* Smart Contract Development (Solidity, etc.)

* Data Wrangling and Analysis (SQL, Python libraries)

* Distributed Systems Concepts
