Aishani Shanker

Career Objective

To leverage expertise in web3, AI/ML, and frontend development to secure a challenging role contributing to innovative technological solutions. Seeking a position where I can apply my skills and further develop my abilities in a collaborative environment.

Personal Info

Name: Aishani Shanker

Email: umahal@example.com

Phone: 01407769346

College: Symbiosis Institute of Technology (SIT)

Achievements

Achievement 1: Developed a decentralized, AI-powered recommendation system using a novel blockchain architecture and a React frontend, resulting in a 30% increase in user engagement over traditional centralized methods. This project showcased expertise in integrating Web3 technologies, AI/ML algorithms, and modern frontend development practices.

Achievement 2: Created an innovative NFT marketplace utilizing a custom smart contract and a sophisticated AI-driven image generation tool, achieving a successful launch and attracting over 500 unique users within the first month. Demonstrated proficiency in Solidity smart contract development, AI image generation techniques, and responsive frontend design, leading to a highly functional and user-friendly platform.

Skills

* Solidity programming

* PyTorch or TensorFlow

* React or Angular

* IPFS or other decentralized storage systems

* Natural Language Processing (NLP)
