Ansh Amble

Achievements

Full-Stack Mastery: Designed and implemented a complete e-commerce platform, leveraging React for the frontend, Node.js with Express for the backend, PostgreSQL for database management, and Python with scikit-learn for predictive analytics to personalize product recommendations, demonstrating proficiency across the full software development stack.

Data-Driven Innovation: Developed a sophisticated data visualization dashboard using D3.js to analyze large datasets sourced from a NoSQL database (MongoDB), employing machine learning algorithms in Python (Pandas, TensorFlow) to identify key trends and generate insightful reports, showcasing advanced data science and frontend skills for impactful data presentation.

Skills

* Proficient in JavaScript frameworks (React, Angular, Vue.js)
* Expertise in Python or similar backend language (Node.js, Java, etc.)
* Relational database management (SQL, PostgreSQL, MySQL)
* Data analysis and visualization using Python libraries (Pandas, Matplotlib, Seaborn)
* Machine learning algorithms and model deployment

Personal Info

Name: Ansh Amble

Email: hmurthy@example.com

Phone: +916776984009

College: College of Engineering Pune (COEP)

Career Objective

To leverage full-stack development and data science expertise to contribute to innovative and impactful projects. Seeking a challenging role where I can apply my skills and continuously learn and grow.
